## MCR protection for Ex areas: the plus of the MDP Ex family

- + Protection device for multi-wire systems (4-pole)
- + Direct shield earthing
- + Easy-mounting, screwless connection option
- + Space-saving width of just 8.7 mm
- + Ex-tested for intrinsically safe measuring circuits
- + High frequency bandwidth up to 100 MHz

Series protection device,  
Ex protection  
2–4-pole, 5–48 V

Surge protection in potentially explosive areas is an important topic. Here, it is important to protect costly measuring technology against the influence of surge voltages through atmospheric dis-

charge. OBO lightning barriers are tested for intrinsic safety (ia) and are independently certified. With a high arresting capacity of 10 kA, they offer optimum protection for four-pole measurement and con-

trol applications. Different voltage variants offer a wide range of applications.

MDP-4 D...-EX : Lightning barrier for intrinsically safe measuring circuits

- Protection device for multi-wire systems
- Direct shield earthing and screwless connection terminals
- Space-saving width of just 8.7 mm
- High frequency range of 0-100 MHz
- Ex-tested: Ex II 2(1) G Ex ia IIC T4 (BVS 11 ATEX E 131 X)
- UL-listed (4UM2)

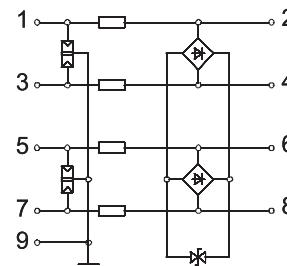

Application: Universal use on 35 mm DIN profile rail in any standard distribution housing.

## MCR protection for explosive areas: the plus of the Petrol Field Protector family

- + For potentially explosive areas
- + Two or three-pole protection of various sensors
- + Metric or NPT thread
- + Robust VA housing
- + High arresting capacity

Surge protection  
with NPT or  
metric thread

### Function and areas of use

With the Petrol Field Protector for data cable protection devices, OBO Bettermann can offer a surge protection device for sensors in potentially explosive areas.

The Petrol Field Protector permits two or three-pole protection for all

kinds of sensors. The protection device can be fastened directly on the sensor and wired in using the appropriate metric or NPT thread. The robust VA housing means that aggressive atmospheres are no problem. The intrinsic safety of the Petrol Field Protector was inde-

pendently tested and certified. The Petrol Field Protector is your partner for safety-relevant applications in which effective surge protection must be guaranteed.
